THE CHAMPION HAS A CIRCULATION ALONG THE LINE OF THE A. & P. ROAD DOUBLE THAT OF ANY OTHER PAPER IN ARIZONA.

MAHONEY has been retired to private life.

New Mexico seems to be a sort of dependency of Indiana, in the estimation of "the powers that be."

PRESIDENT CLEVELAND evidently thinks that civil service reform has nothing to do with the Territories.

FERDINAND WARD has been put to work in the stove manufactory at Sing Sing, and it is probably the first honest work he has ever done since he was big enough to steal.

The growth of the cattle industry is amazing. Over one hundred million dollars are invested in it. Ten years ago less than ten millions represented all the capital employed in raising stock.

MRS. WALKUP's friends are jubilant over what they term her vindication, but a careful study of the evidence and the conduct of the jury will plainly show that the true meaning of the verdict was "not proven guilty."

JOHN CHINAMAN is showing slight evidences of civilization. He has learned to strike. Seventy of them laid down their tools and left their work in San Francisco because the proprietors employed American labor.

In all probability before this is read the rebel Riel will have been executed, but it will be a great blunder on the part of the Canadian government. In prison Riel would be forgotten in time, but if hung he will become a martyr.

PROHIBITION is beginning to loom up as a question in English politics, but our cousins across the water don't seem to know much about its working. We can lend them, or still better, give them Ex-Governor St. John as an instructor, with a great deal of satisfaction.

The Persian mission has been going begging. Since the time when an unfortunate office seeker was informed that he had been appointed minister to Persia and he enquired "where in 'sheol' is Persia?" the place has never been popular for aspiring diplomats, but now a Chicago man has taken it. It would be hard to find anything a Chicago man wouldn't take.

The following is a summary of the recent State elections: New York has elected a democratic governor and lieutenant governor on a plurality vote of about 11,000. The legislature has increased the number of republican members. In New Jersey the republicans have gained in both branches of the legislature. In Virginia Fitz Hugh Lee, democrat, is elected by 15,000 majority, and the legislature has gone heavily democratic. Massachusetts has elected Robinson, republican, as governor, by a plurality of about 22,000. In Maryland the whole democratic ticket has been elected. In Pennsylvania the only state officer elected is a republican.

The President has appointed Mr. Jas. A. Bayard Secretary of Arizona, and Mr. John Hise Surveyor-General. Mr. Bayard, who is a son of Secretary Bayard, is a young man of 26 years, whose occupation has been recently that of a school teacher. A few years ago he was known in Washington as a boy of dandy manners and convivial propensities, but perhaps he has reformed since, and as it does not take much brains to run the Secretary's office, young Bayard may fill it satisfactorily. Mr. John Hise, of Toonto Basin, is highly esteemed as a gentleman of ability and integrity. He is an elderly gentleman, having passed three score and ten and has been a life-long Democrat. While it is claimed that he is an Arizonian much of his time has been spent at the

appointment will be generally considered an acceptable one throughout the Territory.

On Sunday last John McCullough, the tragedian, quietly passed away to that bourne from whence no traveler returns, and his death has left a void in his profession which no living actor can fill. In heroic characters such as "Coriolanus," "Spartacus" and "Verginius" he had no peer since the death of Edwin Forrest, who was the founder of the school of acting of which McCullough became such an inimitable exponent. Before he attained to the zenith of his fame, while his great histrionic genius had scarcely reached its maturity, his life was wrecked, and during the last year he has lived within the shadow of the tomb. The actor, unlike the sculptor, the poet, or the painter, leaves no legacy to posterity beyond the tradition of his fame, but there are thousands upon thousands of people to whom John McCullough's great impersonations will always be a living memory, showing that

"Even in the wreck of noble lives, Something immortal still survives."

TERRITORIAL APPOINTMENTS. The Democratic National Convention which nominated Grover Cleveland, adopted in its platform the following plank:

"The election of federal officers for the Territories should be restricted to citizens previously resident therein."

The present administration has completely ignored this dictum which should have been a governing clause in its policy when dealing with territorial appointments. The territories are not dependencies of the United States to be treated as the colonies of the European nations are. They are not hospitals for political malcontents, or breeding grounds for embryonic politicians, but commonwealths in the true meaning of the word as much as the States are, and as such, the men who are to hold offices of public trust should be selected from those whose interests are connected with the prosperity of the community among whom they live and do business.

This principle was not only admitted but unreservedly indorsed in the section of the Democratic platform above quoted, yet the present administration has deliberately violated it. In the summary suspension of territorial office holders who had proved themselves eminently fitted to perform the duties that devolved upon them and in the appointment in their place of men whose efficiency is at least untried, the President and his advisers are treating the territories more like conquered provinces than communities which are peopled by law abiding citizens that only lack population, not intelligence, to be admitted as States.

In the early settlement of the territories when the population was sparse it was no doubt a necessary and judicious course to appoint outsiders as the governing officials, but when a community has grown to the conditions of wealth, population and intelligence now shown by Arizona it is as unjust—as a matter of abstract right—to send us official guardians from the east as it would be to subject a young man on the verge of his majority to the leading strings that were necessary for his self preservation when an infant.

Republican administrations have served the territories in quite as autocratic a manner in this respect, as the present government is now doing. Territorial appointments have been the reward of a class of politicians who, while demanding recognition for services rendered to their party, were not of sufficient importance to be entrusted with positions of a higher grade in the public service. It is not claimed that President Cleveland is doing any worse in this matter than his predecessors have done, but it is claimed that, as regards the territories, he is not honestly carrying out his own professions as a civil service reformer, and that he is violating a distinct pledge made by the party that elected him to power.

## CURRENT COMMENT.

Tramps are getting numerous and troublesome, even in Arizona.

Prescott gave Governor Zuliak a hearty and rousing reception.

Mr. Ferdinand Ward, late of the firm of Grant & Ward will be provided with board and lodging at Sing Sing for the next ten years.

Still on top. An Arizona baby secured the prize at Los Angeles fair. The baby belongs to Tucson and Mr. and Mrs. Mason are the joint owners.

Senator Sharon is dying and Sarah Althea is about to make her appearance on the dramatic stage in a new version of the Merchant of Venice. It is only a step from comedy to tragedy.

A burglar attempted to rob a house in Sacramento, and got caught fast by the window with his head inside and his legs out. The woman of the house armed herself with a potato masher, and sitting on a chair kept banging his head until the police came. She said she had always just acted to pound a man all she wanted to.

Land Commissioner Sparks has made a ruling that the lands claimed by the A. & P. railroad company between San Buenaventura and San Francisco are open to preemption. The grants in question cover over two million acres. It is to be hoped that Mr. Sparks will be able to make similar rulings in regard to other railway grants.

There is one preacher that still believes in a good hot hell. The Reverend in matebank, Sen Jones, in a recent sermon, said: "I tell you Christians, what dancing you do I advise you to do between here and hell. Too warm for fiddle strings down there. What card playing you do, do it right here. You can't play cards down there, unless you get some asbestos cards. Paper won't last."
